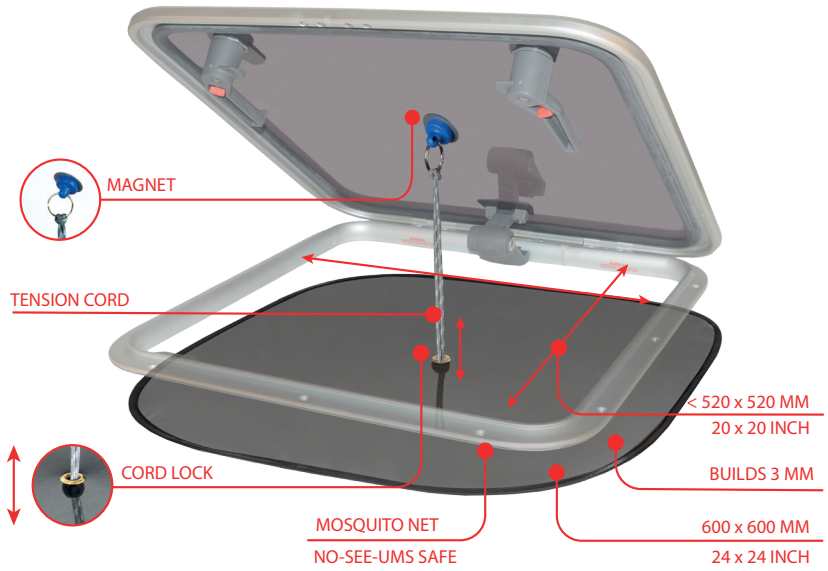
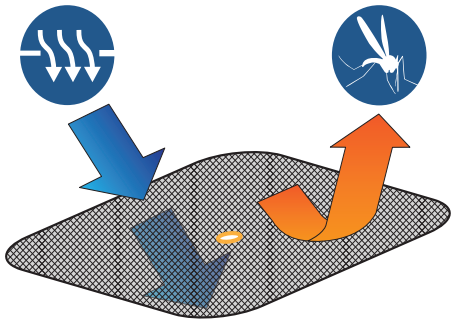
Mosquito net

for regular hatches

Art No
1410
600x600 mm
24”x24”





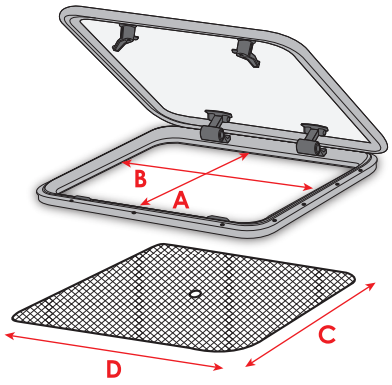
A universal sized mosquito net that fits all brands of hatches and portlights. Mounts from the inside with a suction cup or magnet. The mosquito net should be larger than the “cut out” size to cover the hatch opening. It will also fit different shapes: rectangular, square and round hatches and portlights. A few products cover all sizes of standard hatches / portlights. The mosquito net should be larger than the “cut out” size to cover the hatch opening. All mosquito net come with suction cup, magnet and a storage bag.

Magnet set up

The new way to fasten a mosquito net portlight. A small metal plate is taped to the hatch with double sided tape. The magnet can easily be placed on the metal plate. Magnet solution is included in every package.

- Pop up = 5 sec. mounting
- Fast mounting with magnet
- Fits all brands of hatches
- Mounts from the inside
- Works on flushed hatches
- Dence net – keeps out mosquitoes, sand flies, No-See-Ums, gnats, wasps etc.

Measure



A x B max. 520 x 520 mm (20” x 20”)
